

AUSTRALIAN CYMBIDIUM SCENE

Australia's only all cymbidium magazine was first published in Autumn 2012. It is a quarterly magazine which is released in the week prior to a change of season. The magazine reports on the changing face of the cymbidium industry - paying particular attention to developments in growing techniques/culture, new seedlings and reporting on the latest trends and popularity of particular flower forms. The magazine is A4 in size, it is printed in full color, on glossy paper. It is proving to be very popular!
